WASHINGTON, D.C. 20350-1000

SECNAVINST 2060.2
OP-941C

05 August 1987

SECNAV INSTRUCTION 2060.2

From: Secretary of the Navy

Subj: DEPARTMENT OF THE NAVY (DON) TEN-YEAR BASE ADMINISTRATIVE
TELEPHONE MODERNIZATION PLAN FOR THE CONTINENTAL UNITED
STATES (CONUS)

Ref: (a) OSD Memorandum of 9 Sep 1982, Subj: DEFENSE SWITCHED
NETWORK (NOTAL)

1. Purpose. To establish policy governing the development and implementation of The Department of Navy Ten-Year Base Administrative Telephone Modernization Plan for the CONUS.

2. Background. Many of Department of Navy base telephone facilities are experiencing operational and maintenance difficulties. Switching systems are beyond economical repair, maintenance intensive, at maximum capacity and of outdated technology. These antiquated systems must be replaced with digital voice/data switches, as stated in reference (a). In conjunction with switch upgrade, outside cable plant rehabilitation efforts must be accomplished to ensure capability to support switch replacement and expansion.

3. Policy

a. The base telephone switch replacement will be prioritized for change-out or upgrade utilizing the following criteria:

- (1) Switches currently in maintenance change-out status.
- (2) Switches beyond economical repair and maintenance intensive.
- (3) Obsolete switches.
- (4) Switches at maximum capacity.
- (5) Analog switches.
- (6) Switches currently being leased.

b. Programming and budgeting of funds for the purchase or lease of switches will be in accordance with the budget policy contained in NAVCOMPT Manual, Volume 7.

0 5 AUG 1987

4. Responsibility

a. Chief of Naval Operations shall establish the ten-year modernization plan for CONUS and disseminate resource requirements for this plan through the Base Communications Assessment prepared in support of the DON Program Objectives Memorandum.

b. Resource sponsors are required to program necessary funds to carry out this modernization plan.

James F. Goodrich
Under Secretary of the Navy
